## Sewer Discount Policy

### Filling Swimming Pools

A sewer discount applies when filling a new pool or when filling an old pool after a pool liner is replaced or repaired. Proof of service or purchase and proof of how many gallons the pool holds must be made available. An inspection of the new pool or the old pool replacement liner or repair may also be required in order to receive a discount. There will be no discount for topping off a pool.

### Watering Lawns or Gardens

There is a discount for starting a new lawn, for one quarter only. There are no other discounts for watering a lawn or garden of any kind.

### Water Leaks

If it is determined that a water break has occurred and the water did not enter the sewer system, an estimated discount will be given which will be determined by the Sewer Department.
